

# Become a coach for Rails Girls Luxembourg October 19th, 2019

[www.railsgirls.com/luxembourg](http://www.railsgirls.com/luxembourg)

Dear All,

We are delighted to announce that [RailsGirls](#) is back, join us in October for our 6th edition!

The event is supported by Digital Luxembourg will be held **Saturday 19 October 2018** in Luxembourg-City (venue to be confirmed).

Over the last 5 years we had a great time with 60 different coaches & 250 participants aged between 15 and 59. Each year we have over 100 applicants, so don't hesitate and try it too!

**We really hope you can join us this year. We need your passion & enthusiasm to get Luxembourg & Europe coding!**

**For those not familiar with the event yet, the participants will be coding their first app in RoR during the day with the help of volunteer coaches:**

- You can see what we will be doing here: <http://guides.railsgirls.com/app>  
Last year all participants managed to finish the app!
- Knowledge of **Ruby on Rails is not required** to be a coach.
- You can coach in English, French, Luxembourgish, German (any other language is welcome), we split participants by language to make things easier.
- We are aiming to have 12/15 coaches with us so we can work better in small groups, but you can team up with another coach as well.
- The participants are required to install everything on their laptop prior to the event. We provide support to those stuck.
- Various fun presentations / lightning talks will be given during the day (any ideas / contributions welcome).

**Want to confirm you are in? Any questions?**

Please contact [marina@women-digital.lu](mailto:marina@women-digital.lu)

Please feel free to share the news with your friends / colleagues.

**Coaching is a really rewarding experience, allowing you to share your passion with eager-to-learn participants.**

**Organised by:**
